

## CASE STUDY

- Residential location
- Roof top solar PV
- Residential client direct

## Residential client – Kent

Appointed by the client direct, we installed an 8.6kWp PV system using 20 x 430W Canadian solar modules and a 5kW Hybrid inverter from Growatt. We supported that with a 10.4kWh battery energy storage system from GivEnergy.

Based in East Sussex, Solar UK have been installing solar PV and solar thermal in the UK and Europe for 25 years. Solar UK manufactures, supplies, installs and maintains fully accredited, advanced solar systems specifically for the UK climate. As well as being trusted suppliers and installers to both domestic and commercial customers, Solar UK is also one of the UK's leading solar research and development companies.
