

## CASE STUDY

- New build location
- Roof top solar PV
- via local developer

## New build residential – East Sussex

Solar UK is proud to have delivered for a well respected and established house builder in the South East. We were appointed by Mid-Sussex Homes to deliver a solar PV roof top scheme for their new residential project.

Our team positioned 32 x 405W panels across 5 plots utilising Growatt and Enphase IQ7 microinverters. The 5 plots are estimated to achieve 13,497kWhrs annually.

## New build residential – East Sussex

Mid-Sussex Homes Ltd is a family run business with over fifty years' experience in the industry. From the beginning, it was the ethos of the company, to use local experienced craftsmen and quality materials to create many stylish traditional and contemporary designer homes. Based in Uckfield, East Sussex and developing throughout the South East of England.

Based in East Sussex, Solar UK have been installing solar PV and solar thermal in the UK and Europe for 25 years. Solar UK manufactures, supplies, installs and maintains fully accredited, advanced solar systems specifically for the UK climate. As well as being trusted suppliers and installers to both domestic and commercial customers, Solar UK is also one of the UK's leading solar research and development companies.
